PROFESSIONAL SUMMARY

Senior Frontend Engineer with 7+ years of experience building complex web applications, primarily using Vue.js, TypeScript and JavaScript, with additional React experience. Skilled in developing data-intensive SaaS dashboards, interactive interfaces and reusable components, with expertise in REST API integration, state management and performance optimization. Experienced in independently delivering features from requirements to production.

TECHNICAL SKILLS

- **Frontend**: Vue.js, TypeScript, JavaScript, React, Angular, Tailwind CSS, HTML, CSS, Figma
- **Frontend Architecture & State**: Component-Based Development, Pinia, Vuex, Responsive UI
- **Backend & APIs**: REST APIs, Node.js, .NET (Basic Experience), Azure
- **Database**: PostgreSQL, Microsoft SQL Server
- **Development & DevOps**: Git, GitHub, Docker, CI/CD
- **Engineering Practices:** Code Reviews, Pull Requests, Performance Optimization, Agile Development

PROFESSIONAL EXPERIENCE

SENIOR SOFTWARE DEVELOPER

Fyr Technology AS | Norway | June 2023 – Present

Develop and maintain a production SaaS marketing analytics platform using Vue.js, TypeScript and JavaScript.

- Improved application performance by reducing unnecessary API calls, optimizing auto-save functionality and implementing efficient client-side data handling.
- Developed customizable dashboards with multi-tab navigation, drag-and-drop interactions and advanced widget management.
- Built interactive data tables, charts and visualization components with configurable columns, custom hover information and other user-focused features.
- Collaborate with developers through code reviews, pull requests and continuous improvements to existing functionality.

WEB & FRONTEND DEVELOPER

Various Software & Technology Companies | Pakistan | 2017 – 2022

- Developed responsive websites and client web applications using JavaScript, PHP/Laravel, WordPress and HubSpot.
- Built and maintained custom website features, content management systems and production-ready web solutions.
- Contributed to a social media platform, developing feeds, user profiles, posts, likes, comments and responsive interfaces.

SELECTED PROJECTS

FRONTEND DEVELOPER – CLIENT PROJECT

Fish Farm Inventory Management System | Norway | 4-month project

- Independently developed the complete frontend of a fish farm inventory management system using Vue.js, taking ownership from client requirements to final delivery.
- Built CRUD functionality, large data tables and REST API integrations for managing fish-feed inventory, farm information and operational data.
- Worked directly with the client through on-site visits, adapting the application to changing requirements and successfully delivering the frontend within four months.

AI-Powered Developer Portfolio

Vue.js · TypeScript · Tailwind CSS · Node.js · OpenAI API · Vercel
Live: www.devbyasad.com

- Developed a responsive, bilingual (English/Norwegian) portfolio with language-switching functionality to showcase professional experience and projects.
- Built an AI Career Assistant using the OpenAI API to answer questions about professional experience, skills and career background.
- Implemented a serverless API with request validation and rate limiting, deployed on Vercel.

EDUCATION

Bachelor of Science in Computer Science (BSCS)

Institute of Management Sciences | 2011 – 2016
Four-year bachelor's degree program

CERTIFICATIONS & MICROSOFT LEARNING

AI Literacy Fundamentals – 1 ECTS
Microsoft & Kajaani University of Applied Sciences | 2026

Microsoft Learn – AI & Azure Learning | 2026
Get started with AI in Azure · Work smarter with AI
